The Text: Families, Genera and Species Described	51
Bibliography	244
Index	245
Index of Popular Foreign Names	258

Illustration References. The bold numerals in the descriptive text (pages 51 to 243) refer to the illustrations. These are numbered consecutively, numbers 1 to 311 being in colour and numbers 312 to 439 being line drawings immediately following the colour plates.

To locate the text pages upon which illustrated plants are described, it is necessary to refer to the plant's name in the Index, where both text pages and figure references are printed.
