Contents

PART I Climate Change and Ecosystems

Chapter 1

- Interaction between Climate Change and Greenhouse Gas Emissions
from Managed Ecosystems in Canada.....3
J.S. Bhatti, M.J. Apps, and R. Lal

Chapter 2

- The Science of Changing Climates.....17
H. Hengeveld

Chapter 3

- Impact of Climate Change on Agriculture, Forestry, and Wetlands.....45
L.D. Mortsch

PART II Managed Ecosystems — State of Knowledge

Chapter 4

- Anthropogenic Changes and the Global Carbon Cycle.....71
J.S. Bhatti, M.J. Apps, and R. Lal

Chapter 5

- Plant/Soil Interface and Climate Change: Carbon Sequestration from the
Production Perspective93
G. Hoogenboom

Chapter 6

- Carbon Dynamics in Agricultural Soils127
R. Lal

Chapter 7

- Plant Species Diversity: Management Implications for Temperate
Pasture Production149
M.A. Sanderson

Chapter 8

- Net Ecosystem Carbon Dioxide Exchange over a Temperate, Short-Season
Grassland: Transition from Cereal to Perennial Forage 163
*V.S. Baron, D.G. Young, W.A. Dugas, P.C. Mielnick, C. La Bine,
R.H. Skinner, and J. Casson*

Chapter 9

- Forests in the Global Carbon Cycle: Implications of Climate Change 175
M.J. Apps, P.Y. Bernier, and J.S. Bhatti

Chapter 10

- Peatlands: Canada's Past and Future Carbon Legacy 201
D.H. Vitt

Chapter 11

- Linking Biomass Energy to Biosphere Greenhouse Gas Management 217
D.B. Layzell and J. Stephen

Chapter 12

- Ruminant Contributions to Methane and Global Warming —
A New Zealand Perspective 233
G.C. Waghorn and S.L. Woodward

Chapter 13

- Strategies for Reducing Enteric Methane Emissions in Forage-Based Beef
Production Systems 261
K.H. Ominski and K.M. Wittenberg

Chapter 14

- Mitigating Environmental Pollution from Swine Production 273
A.L. Sutton, B.T. Richert, and B.C. Joern

Chapter 15

- Diet Manipulation to Control Odor and Gas Emissions from
Swine Production 295
*O.G. Clark, S. Moehn, J.D. Price, Y. Zhang, W.C. Sauer, B. Morin,
J.J. Feddes, J.J. Leonard, J.K.A. Atakora, R.T. Zijlstra, I. Edeogu,
and R.O. Ball*

PART III Knowledge Gaps and Challenges

Chapter 16

- Identifying and Addressing Knowledge Gaps and Challenges Involving
Greenhouse Gases in Agriculture Systems under Climate Change 319
D. Burton and J. Sauvé

Chapter 17

- Knowledge Gaps and Challenges in Forest Ecosystems under Climate
Change: A Look at the Temperate and Boreal Forests of North America..... 333
P.Y. Bernier and M.J. Apps

Chapter 18

- Knowledge Gaps and Challenges in Wetlands under Climate Change
in Canada 355
B.G. Warner and T. Asada

PART IV Economics and Policy Issues

Chapter 19

- Economics of Forest and Agricultural Carbon Sinks 375
G.C. van Kooten

PART V Summary and Recommendations

Chapter 20

- Impacts of Climate Change on Agriculture, Forest, and Wetland Ecosystems:
Synthesis and Summary 399
J.M.R. Stone, J.S. Bhatti, and R. Lal

Chapter 21

- Climate Change and Terrestrial Ecosystem Management: Knowledge Gaps and
Research Needs..... 411
I.E. Bauer, M.J. Apps, J.S. Bhatti, and R. Lal

- Index** 427
